

# AFRICAN URBAN SPACES

In Historical Perspective

A sepia-toned photograph of a busy African street scene. The street is paved and runs through a dense urban area. On the left, there are multi-story brick buildings with balconies. On the right, there is a long, single-story building with a prominent arched window. People are walking along the sidewalks and in the street. A white van is visible in the distance. The overall atmosphere is one of a vibrant, historical urban environment.
