MESSAGE FROM THE FOUNDERS

Hon Justice Kasanga Mulwa

BE STRONG AND COURAGEOUS:

First of all, congratulations graduands! When you made your first step to join Lukenya University, you selected your academic home, the incubator of your potencies and your one-stop University. As you have come to realize, Lukenya University is not only the university where you drink from the fountain of reason and intuition; and develop your intellectual consciousness but also the institution that mentors your emotional, inter-personal and intra-personal intelligences. I am proud of you!

In the course of your study, you have taken fundamental decisions that now open the world of possibilities into your future. You have been molded into brilliant assets with facets of success, critical mentality with divergent thought, with flexibility to find novel solutions.

You have been converted into graduates with balanced mentality, focused to the personal and organizational success, with a vision of the future. You now have a mind capable of working, feels and respects intuition, that knows how to establish and conserve relationships, that works on teams or individually in moments of intensive flow. It is in this regard that I dedicate the Book of, Joshua 1: 7, to you:

"Be strong and of good courage. Be careful to obey all the law my servant Moses gave you; do not turn from it to the right or to the left, that you may be successful wherever you go."

Mrs Martha Kasanga Mulwa

When you are strong and courageous, you don't quit, but stay in there. Don't be quitters, for they never win. In the words of Winston Churchill, "Never Give Up", keep trying. That is why I end my message with great words from Edgar Albert Guest's poem (1881-1959), "Don't Quit":

When things go wrong, as they sometimes will, when the road you're trudging seems all uphill, when the funds are low and debts are high, and you want to smile but have to sigh. When care is pressing you down a bit, rest, if you must, but don't you quit.

Success is failure turned inside out, the silver tint of clouds of doubt, and you never can tell how close you are, it may be near when it seems afar, So stick to the fight when you're hardest hit, It's when things seem worst that you mustn't quit.

MESSAGE FROM THE BOARD OF TRUSTEES CHAIRPERSON

**Hon Sylvia Mueni
Kasanga**

Special congratulations to our year 2022 graduands. We appreciate and cherish you for your achievements.

With you in mind the founders conceived the idea of Lukenya University, nurtured the idea and implemented it. Because of you; Lukenya University was founded, established and grown. You have enabled us fulfil the dreams of the founders and their successors. Once again congratulations.

With this graduation, you have achieved one of your life dreams, plans and aspirations. You need to move these plans to the next level. That next level calls upon you to knock on the doors of employment, business, research and further education.

As you knock on these doors, put on the face of determination and persistence. Keep on trying and re-trying. Never give up. Times may be challenging but you are greater than the trials.

Remember that you have been well trained and endowed with knowledge and life skills. That is your confidence and hope. Utilise that effectively and you shall be successful.

In your future endeavours, be positive in life and observe your mental health. Do not allow frustrations and despair to dominate your life. Avoid negative thinking. Negative thinking can lead to mental or emotional illnesses. This can manifest as physical indications and thus have negatively impact on your health and performance.

Remember, every challenge you face in life, presents a hidden opportunity. It is your responsibility to identify the hidden opportunities then choose the best for exploitation.

I recommend that you read a book called **The Power of Positive Thinking** written by Norman Vincent Peale. In this book, the author explains how positive thoughts and faith can change people's lives for the better. Through positive thinking, you have the ability to change adverse situations and circumstances then create positions that bring about fulfilment and success.

Remember that you were created by God for a purpose and you are endowed with greatness. You shall be who you want or determine to be, but not what other people state about you. You have all the power to determine your future.

I believe you now have what you need to face the future. Go and be fruitful in your endeavours. May the Almighty God bless all of you abundantly.

Live long Lukenya University.

MESSAGE FROM THE CHANCELLOR

Prof. Margaret McKenna

Congratulations to the Lukenya University year 2022 graduands. It is your hard work and dedication as well as the support of your family, friends and community that brings you here today. Take a minute to reflect on your times in early grades in your village or town. Think of all your many classmates and how very few of them have had the opportunity to be where you are today.

This great opportunity brings with it great responsibility.

I am sure you have spent time contemplating on your future and what's next? Further education, engagement in research, job or even starting your own business are all possible.

At Lukenya University, you were equipped with the relevant skills and knowledge to face this new world. You have something to offer, and you should do so with confidence. The world offers a great many problems and challenges. You can and in fact must be part of that solution.

Over 70 years ago, the Sociologist, Margaret Meade said "Never doubt that a small group of thoughtful, committed, citizens can change the world; indeed, it is the only thing that eve has'. A year ago, 16-year-old environmentalist, Greta Thunberg stated "you are never too small to make a difference".

We see examples of this everyday...from the young Kenyans who cross the Boston marathon finish line a block from my house every year to the group of Harvard undergrads, including **Zuckerberg Mark**, who founded **Facebook**.

There are numerous young men and women, actually teenagers, who have had great impact through their efforts: **Matt Mullenweg** who founded **WordPress**, when he was 19; **Michael Dell** who founded **Dell** at the same age; and two sisters **Caroline Bercaw** and **Isabel Bercaw**, who started **Da Bomb Bath Fizzers** when they were in high school aged 15 and 16.

In Kenya we have **Stephen Ngei** who stated hawking paraffin while in secondary school and later founded **Makindu Motors**. Today Makindu Motors has entered the world of multinationals. In your endeavours, I urge you to remember the theme of this year's graduation: "**Re-engineering knowledge and skills for sustainable employment**". Think of re-engineering what exists with a sustainability approach. Think of climate change then use appropriate measures that are adaptable to the climate. We all need a better place for ourselves and future generations. Barack Obama reminds us "Change will not come if we wait for some other person or some other time. We are the ones we've been waiting for. We are the change that we seek."

Finally, I wish you all the best in your endeavors.

God bless you.

Always reflect on the acronym REACH and the important messages that each of the letters carries. This will assist you to establish and enjoy a successful career.

MESSAGE FROM THE COUNCIL CHAIRPERSON

Mr. Daniel Ndonge
Council Chairperson

This year, 2022, will go down our memory, as one of the greatest years for Lukenya University. It is in this year that Lukenya University was granted Charter. This Charter was not just granted to Lukenya University, it was earned. This is great honour to the entire University community and especially to our graduands and students.

To all the Lukenya University Community we say, congratulations for this achievement. We all commit to abide by the Charter.

The Council is committing that the graduands being awarded and conferred certificates, diplomas and degrees are not only fully qualified, but also possess the competencies necessary to undertake responsibilities in the world of their academia and professional area. This commitment is derived from the rigorous oversight role undertaken by the Council as specified in the Universities Act, the Lukenya University Charter and Statutes. This is a role the Council will faithfully and diligently continue to execute without tiring.

To the graduands, I say congratulations for the hard work, persistence and patience during the time of your studies. Due to your hard work, you are going to be honored with the qualifications you earned. As you move on with your future endeavors, be strong and courageous. As per the theme of this year's graduation Re-engineer knowledge and skills for sustainable employment.

The world of today needs a military mind power. A mind power to change the world for better. This is necessary for as Alon Jope, Unilever CEO said "The planet is in crisis, and we must take decisive action to stop the damage." These damages have brought about heavy losses to countries, businesses and individuals. These damages and losses have to be stopped and alleviated.

To mitigate on these damages and losses, we need mind-powers; people who can think differently, are innovative, working better and providing suitable solutions for posterity.

To the graduands; you are the people the world needs. You have graduated at the opportune time. Seize the moment. Go and start working in whatever field of your expertise. Go and re-engineer knowledge and skills for sustainability.

Do something, but do it differently and better. Start small and grow. Just do what you can at a time. And know that we are living in a world limitless opportunities.

I ask you to be positive in everything you do. Remember your brain is the most powerful organ in your body and it reinforces and regulates your life. Surround yourselves with positive people who encourage you. If you try something and you do not succeed, keep trying and re-trying.

Finally, I thank the academic and administrative staff under the leadership of the Vice-Chancellor, Prof. Constantine Nyamboga for quality work that has led to this graduation. Keep up the good work.

May the Almighty God bless all of you abundantly.

Live long Lukenya University.

MESSAGE FROM THE VICE CHANCELLOR

Vice Chancellor
Prof. Constantine M. Nyamboga

On behalf of the Senate, University Management, Staff and Students, it gives me great honour to congratulate the graduands of Class 2022. I have no doubt in my mind that you have longed for this day. Like a farmer, you carefully sowed your seeds and today you get to reap the harvest. You have every reason to celebrate.

Dear graduands, the certificates and diplomas that you are about to be awarded and the degrees that you are about to be conferred are not mere papers. They represent the skills and qualifications that you have acquired at Lukenya University. They also symbolize your readiness to serve the community. **Benjamin Disraeli's** wisdom that **"the youth of a nation are the trustees of posterity"** is still as pertinent today as it was then.

I am particularly proud of the resilience you have demonstrated during the period of your study, especially the years 2020 and 2021 when Covid-19 pandemic wreaked havoc and nearly brought the world to a standstill. As you graduate today, you carry the hope for a better future for our country. You must craft ways of contributing to national development with all the knowledge that you have acquired. In the words of Tom Hanks **"The future is always uncertain, but we who celebrate what you have done, who celebrate all of your achievements, we are certain of one thing on this day: You will not let us down."**

I now commission you to the world, go out there and with industriousness and integrity, change the world to be a better place to live. Once again congratulations my dear graduands and God bless you.

We now send you out there into a rapidly changing world. We are certain that you will put the skills you have gained into great transformative use. Even while you were with us during your studies, you are witnesses to the changes in the acceptance and increased use of the digital platforms in all sectors of our lives.
