MESSAGE FROM THE FOUNDERS

First of all, congratulations graduands! When you made your first step to join Lukenya University, you selected your academic home, the incubator of your potencies and your one-stop University. As you have come to realize, Lukenya University is not only the university where you drink from the fountain of reason and intuition; and develop your intellectual consciousness but also the institution that mentors your emotional, inter-personal and intra-personal intelligences. I am proud of you!

In the course of your study, you have taken fundamental decisions that now open the world of possibilities into your future. You have been molded into brilliant assets with facets of success, critical mentality with divergent thought, with flexibility to find novel solutions.

You have been converted into graduates with balanced mentality, focused to the personal and organizational success, with a vision of the future. You now have a mind capable of working, feels and respects intuition, that knows how to establish and conserve relationships, that works on teams or individually in moments of intensive flow. It is in this regard that I dedicate the Book of, Joshua 1: 7, to you:

When you are strong and courageous, you don't quit, but stay in there. Don't be quitters, for they never win. In the words of Winston Churchill, "Never Give

Up", keep trying. That is why I end my message with great words from Edgar Albert Guest's poem (1881-1959), "Don't Quit":

When things go wrong, as they sometimes will, when the road you're trudging seems all uphill, when the funds are low and debts are high, and you want to smile but have to sigh. When care is pressing you down a bit, rest, if you must, but don't you quit.

Success is failure turned inside out, the silver tint of clouds of doubt, and you never can tell how close you are, it may be near when it seems afar, So stick to the fight when you're hardest hit, It's when things seem worst that you mustn't quit.

"Be strong and of good courage. Be careful to obey all the law my servant Moses gave you;

On behalf of the Senate, University Management, Staff and Students, it is with great delight to extend our congratulatory message to the Jubilant Class of 2023. Your presence here illustrate your resilient and hard work during your two to four years of intense study.

Remember that you are a special group graduating from a Dynamic Chartered University committed to excellence in teaching, research, training and community service. As you open this new chapter in your life, please note that Education is not all about getting first class, it is about learning new things, creating networks and forging bonds, adjusting to new surroundings that transform your future life. Just as Malcolm Forbes once said “Education’s only purpose is to replace an empty mind with an open one”. Since you have gone through the scholarly world, learn to adapt to the changes within your environs, and endeavour to work to better yourself and your surroundings.

Graduating is not a walk in the park, it is a struggle not only for you but also for your parents and benefactors. Some of you thought that the day of graduation will never come but it is here today. The only life tragedy it that it puts a lot of responsibility on your shoulders. You have to contribute towards development

of your family, community, the country and the continent as a whole. Always cherish our motto “labouring for the benefit of future generation”, indeed you are our future generation. Luckily, Lukenya University has prepared you to be an all-round Kenyan capable of turning the life challenges into opportunities for growth and development.

I wish to extend my gratitude to your lecturers, parents, guardians and sponsors whose support has enabled you to be here today. This is because it is not only your own drive, intellect and determination that resulted to your success but due to the support of these stakeholders. Remember to always pray for them.

Now, I invite you to join the Lukenya Alumni and commission you to the world of work, go out there and cherish the values of responsibility, integrity and industriousness that the University has inculcated in you to change the world to be a better place to live in. Once again, congratulations my dear graduands and God Bless you.

ULRICH KRUGER

***Heartfelt Congratulation to all
members of the Graduation Class 2023***

This year 2023 is marking yet another milestone in the development and growth of Lukenya University. We have embarked on the road to become an internationally recognized University. With the help of International Universities like the German Technische Hochschule Rosenheim Lukenya University will slowly transfer from a pure Teaching Environment to that of a Technical University based in Scientific Research. 2024 will see the new Department of Wood Science and Technolog established – the first department on a fully modular system, conducive to international studies and capable in accepting international students. There is evidence of this transition everywhere in the University – a fresh wind is blowing.

The number of research projects has drastically increased – as have the Scientific Dissertations that wave been filed for peer review. Well done and let us stay on this path of modernization leading Lukenya University into an even brighter future.

Your commitment, hard work and sacrifices in pursuit of your education have not gone unnoticed, and we deeply appreciate and cerebrate your achievement together. I would also like to express my gratitude to the lecturers, tutors, all members of our staff who have played a vital role in your education, not forgetting your fellow students, parents, who have also been instrumental in providing support, mentorship, scholarships and other opportunities that have contributed to your success.

As you prepare to leave Lukenya University and Lukenya College, remember that your journey is far from over. It has only just begun. The only journey that is impossible is the one that never starts. We have high expectations for you, and we believe that you will be outstanding ambassadors for your Alma Mater. As alumni, you will be our strength, and we will continue to support you on your future endeavors.

I extend my most sincere thanks to our visionary founder and Director, Madam Marthar Mulwa, whose leadership and unwavering dedication have inspired us to believe in the power of hard work. Together, we are committed to transforming Lukenya University and Lukenya College into world-class institutions of higher learning, dedicated to academic excellence.

I also want to salute and recognise our Chancellor, the Vice Chancellor, the Board of Directors and Board of Trustees for their visionary leadership, guidance and support.

As an institution of higher learning, we have a responsibility to embrace environmental conservation. We should actively

work towards reducing carbon emissions wherever we are and promote the planting of more trees. I urge you to be champions of green initiatives, advocating for a sustainable future and planting and growing more trees wherever you go. Embrace new challenges, explore uncharted territories, and become the shining stars you are meant to be.

A brief history of Lukenya College: The College was established in 2013 at Mutito Andei and subsequently relocated to Emali in 2018. We are proud to report that the college is still growing, with a current population of slightly over 300 students. Our students have consistently performed well in academic and various co-curricular activities, as exemplified by the recent success of the Lukenya College music club which secured a second positions in three categories at the national music festivals. This success is a testament to the unity of purpose and discipline demonstrated by our students and staff as a team.

Lukenya College offers programs in three departments: Education, Business, and Technical. We provide training in a wide range of fields, including food and beverage, electrical and electronic engineering, building and civil engineering, primary teacher education, early childhood teacher education, cosmetology, ICT, community development and social work, automotive engineering, plumbing, secretarial studies, HR, accounting, procurement and supply chain management, and Business management. We offer diploma, Craft certificate, and artisan-level training programs that prioritize hands-on experience and equip our learners with the skills and competencies required by the job market as guided and approved by TVETA.

In pursuit of our mission, we have introduced dual (cooperative) training in automotive and plumbing courses to ensure that our trainees gain valuable industry experience. This will make them well-prepared and competent professionals, aligned with the industry's expectations.

Once again, to our graduating class, we believe you will be outstanding ambassadors for Lukenya University and Lukenya College.

For those with diplomas and above, I strongly encourage you to consider furthering your studies, perhaps even here at Lukenya University. As you venture into the wider world, reach for the stars, and shine brightly.

Best wishes and congratulations on your graduation.

**THE ICT

ACADEMIC AND STUDENT AFFAIRS

Mr. Daniel M. Kiveli

CONGRATULATIONS TO
THE CLASS OF 2023

Information and Communication Technologies have become the engine for innovative learning, teaching and research in Lukenya University with the university fast becoming a model institution in adoption and utilization of technology for operational efficiency and survival.

The ICT Directorate has rapidly transformed how teaching and learning is delivered in the University by facilitating the University to embrace the rapid technological changes that have seen transformations from the traditional face-to-face interactions and paper-based mode of communication to today's usage of web conferencing solutions to conduct meetings and the use of automated services for efficient communication, decision making and routine processes such as online processing of applications, admissions, student registration and payments. This has increased operational efficiency and delivery of services to the University community and to other stakeholders.

The ICT Directorate is generally charged with the responsibilities of deploying ICT infrastructure and services for administration, teaching, research and learning and provides leadership to enable the university to achieve value for money by integrating ICT systems in all university business processes. The Directorate has acquired state of the art ICT equipment, deployed ICT Management Information Systems and provided ICT standards, guidelines and policies for the University.

As an important Service Delivery Directorate, we endeavor to respond quickly and effectively to the needs of students and staff. We are here to serve the university community and offer a better experience in utilizing ICT systems and services.

We strive to provide the best support services and are committed to continuous improvement by supporting all of university staff and students to innovate. We are passionate to improve existing university services and develop new, market leading products and services for commercialization. We strive to be producers rather than consumers of ICT knowledge.

On behalf of the ICT Directorate, I take this very golden opportunity to congratulate all our students who are graduating in the year 2023.
